Xcellent Scanner - iOS

Copyright 2019 Ziiware Canada, Inc. All rights reserved.

WARNING - This scanner does not send symbology information, this may result in extra search results from scans. As a result, this scanner is NOT officially supported. This documentation is merely provided to help our customers who own these scanners.

1 Common barcode successful scan confirmation beeps and LED flashes

1. Enter Setup:
   You will hear three falling tones, with purple LED flashing.
2. Exit Setup without Save:
   You will hear 3 falling tones. The flashing LED color may vary at this point.
3. Exit Setup with Save:
   You will hear 3 falling tones. The flashing LED color may vary at this point.

2 Unpair the scanner

1. Ensure the scanner is powered off. (If the scanner is on, hold the trigger and it will beep twice before turning off.)
2. Hold the *power* button for about 10 seconds. You will hear the scanner beep as the power turns on and again when it unpairs. The LED will flash purple and then red.

3 Unpair the iOS device

1. Open the *Settings* app, and choose the *Bluetooth* tab.
2. Tap the **(i)** icon beside the entry starting with the letters **CT** in the *MY DEVICES* section.
3. Tap Forget This Device.

4 Factory reset the scanner

1. Ensure the scanner is powered on.
2. Scan the **Enter Setup** barcode:

3. Scan the **Factory Reset** code to reset all configuration on the scanner:

   You will hear three rising tones, with purple LED flashing.
4. Scan the **Exit Setup with Save** barcode:

5 Pair the scanner to an iOS device

1. Ensure the scanner is powered on. (If the scanner is off, hold the trigger until one long beep sounds.)
2. Scan the **Enter Setup** barcode:

3. Scan the following one-click iOS connection barcode:

4. Scan the **Exit Setup with Save** barcode:

5. Turn barcode scanner off and on.
6. Turn on Bluetooth on your iOS device.
7. Find the entry starting with the letters ‘CT’ (may be under Available Devices). A Buetooth pairing request dialog with a PIN code will pop up.
8. Find the numbers in the PIN in the following barcodes and scan them one after the other. Then scan the ‘Confirm’, completing the pairing.
